Ramco produce a double whammy win for MoD

Since 2001 Ramco has been managing the collection, refurbishment and resale of redundant catering equipment on behalf of the MoD's Defence Catering Group. More than 25% of the catering equipment collected is currently refurbished and resold through Ramco's own fully-equipped refurbishment workshop. The arrangement is a double whammy win for MoD as they benefit through savings made by no longer incurring the cost of removal, and win again by receiving a share of the final resale value. Forces units also have the ability to purchase refurbished equipment to MoD's own Specification 42 standard, for example: -

A complete kitchen range was declared surplus by MoD and removed by Ramco. An Army unit saw Ramco's advert about its refurbishment capability and asked for the kitchen range to be refurbished to Spec 42, before subsequently purchasing it from Ramco and shipping it overseas for a short term operational assignment. The unit saved around 70% against purchasing new equipment.
